

WELCOME MESSAGE

It is our great pleasure to cordially invite you to the International Symposium on Genetic Role of Neurometabolic Diseases with Infantile Epilepsy (ISGNIE 2021) and the 22nd Annual Meeting of Infantile Seizure Society, which will be held on June 25 to 27, 2021 at the Taipei International Convention Center, Taiwan. This is the second time that this honor has been bestowed upon Taiwan in 11 years. Based on previous successful events, the ISGNIE 2021 will be sure to be just as rewarding.

We live in an era of developing precision medicine through genetic testing. Therefore, we determined the year's main theme as "Genetic Role of Neurometabolic Diseases with Infantile Epilepsy". Our program aims to share an insight into the recent research and global cutting edge technologies, which help accelerate the development of new treatment and improve the health care system.

Taipei is the capital city of Taiwan and it is a bustling metropolis with interesting things to do and places to visit. We would like to invite you into a world of fascinating contrasts - a mix of the modern and traditional, with a generous dash of energy and friendly smiles to make this one of your most memorable trips to Asia.

We are confident that your participation will make this meeting both fruitful and successful, and look forward to sharing new information as well as exciting discoveries with you.

Sincerely,

Wang-Tso Lee, MD, PhD

President, ISGNIE 2021
Professor and Chief, Department of Pediatric Neurology,
National Taiwan University Children's Hospital, Taiwan
